

Pink Lemonade is a hybrid strain made by crossing Lemon Skunk and Purple Kush. It smells like fruity, mentholated tea with flavors of lemon and grapefruit. This strain is used by patients to treat symptoms related to focus and stress. The initial effect is cerebral and energizing, followed by a mild relaxation radiating through out the body.

Sativa: 60%    Indica: 40%

THC: 17-22%    CBG: 1%

Rx: Stress, depression. nausea.

Dominant terpene: Pinene
