

Violet Fog is an indica dominant hybrid from Grape Gasoline and Khalifa Mints. If you like the classic indicas this one is for you. You will experience a hazy, heady high of unfocused pleasure rolling in like a San Francisco fog and dropping you into complete sedation. Your relaxed happiness will be heady and light while your body relaxes. The flavor is sweet and fruity with a spicy and skunky exhale. The buds are known for their purple undertones.

Sativa: 20% Indica: 80%

THC: 13-29% CBG: 1%

Dominant terpene: Myrcene

Rx: Chronic pain, insomnia, nightmares, depression, PTSD.
